

Resin MS - 25

Anti-tack for Rubber Compound

Resin MS - 25 is an anti-tack between surface of rubber compound , it can be used for most of rubber like, NR, SBR, BR, IIR, etc. Produces an excellent anti-tack effect and have a good dispersion stability even in the diluted condition.

Composition : A special combination of polymer and other additives.

Properties:

- Physical Form : liquid
- Color : White
- Density (gr/cc) : ± 1
- Solid Content : $\pm 30\%$
- pH (10% solution) : 8.0 – 11.0
- Shelf Life (min.) : 1 year

Application:

In usage Resin MS - 25 diluted with water at 5 – 20 % concentration. Higher concentration is depend on the rubber compound composition, lower hardness need higher concentration.

Packaging : 100 Kgs / Drum.
